

Agenda

↳ Parameter

↳ Calculated fields

↳ Row level

↳ Column level

Aggregation $\propto \frac{1}{\text{granularity (drilling)}}$

Agenda

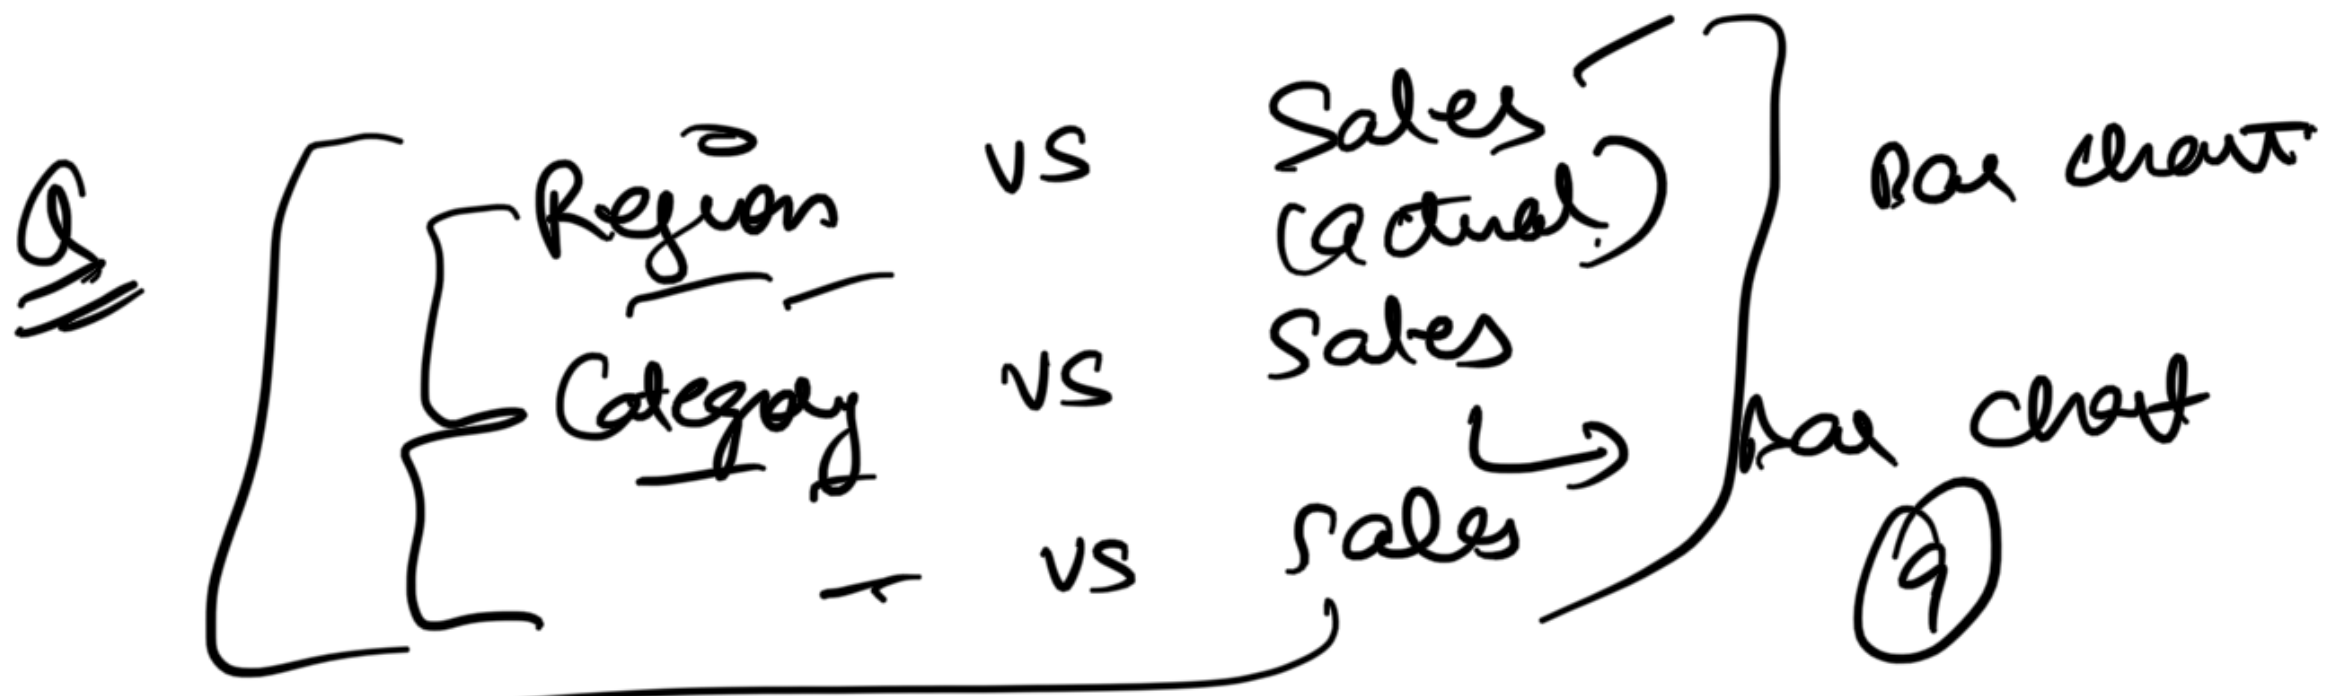

Parameters
↳ variable to replace a constant

Applications

↳ Dynamic Calculations

↳ Dynamic Sets

↳

Parameter
↳ Dynamically Switch b/w the Dim & measures !!

→ Profit & Quantity?
① Switch b/w Dim & measures

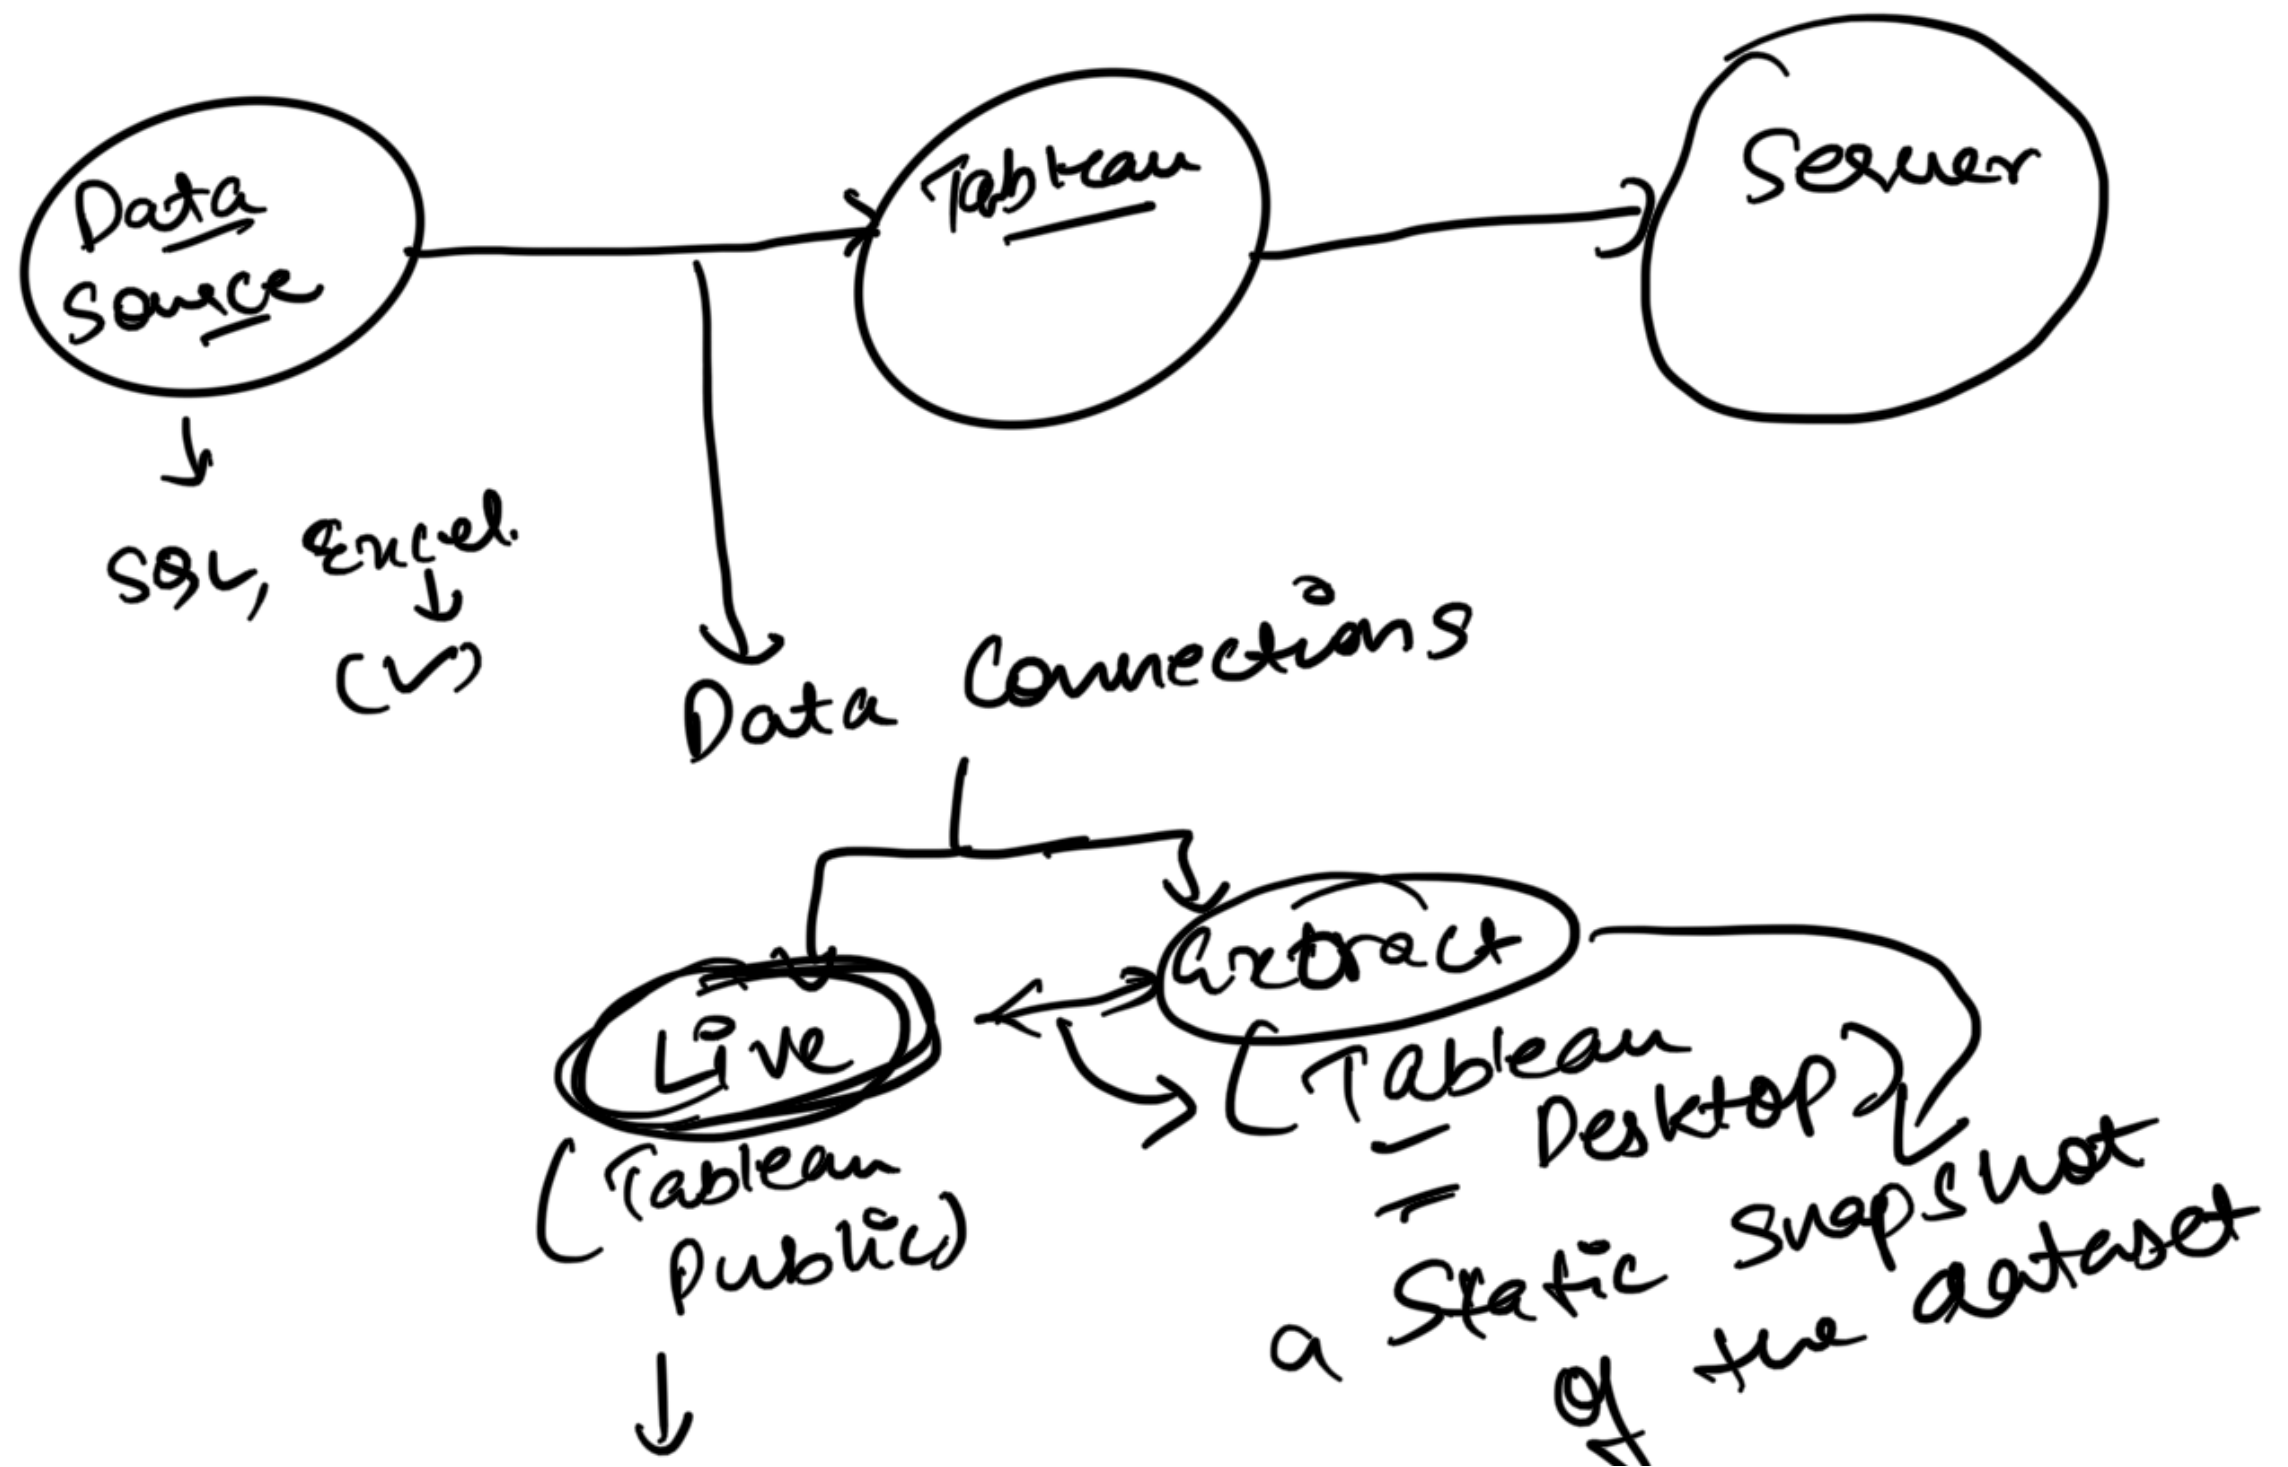

Now Create Measure selector using parameter?

Q == Top N Customers? →
== Bottom N Customers?

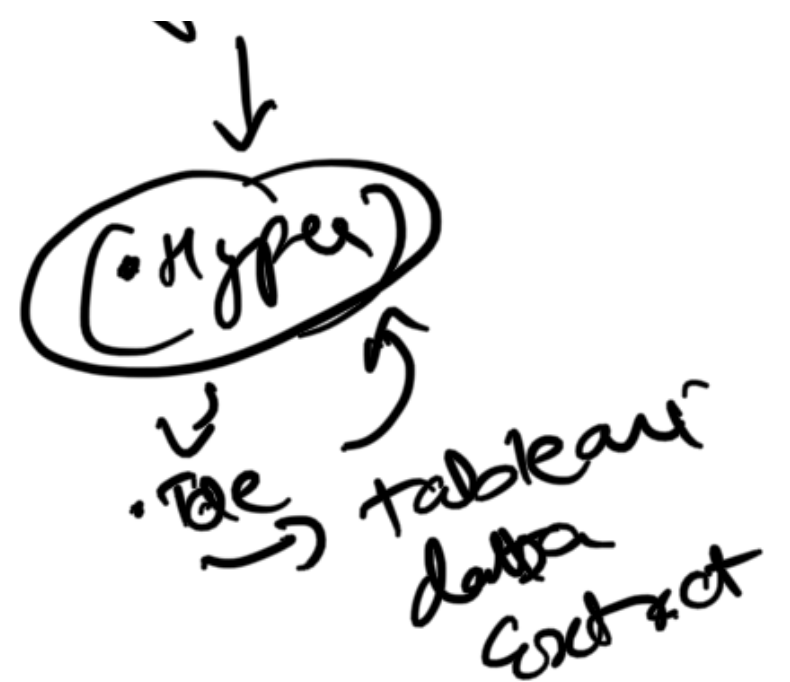

Limitation

↳ Only Single Select available

↳ Performance is low

high performance

11:10 PM

Q [Sales vs Profit vs Quantity] (15 mins)
↳ Across Month year?

line → Trend line

Combined Axis

↳ more than 1 measure
can be compared

axis is being

↳ same
↳ using shared
measure names
& measure
values

Q // Quantity vs Profit margin
↳ %
↓
actual

↳ Dual axis chart.

Combined Axis
↳ measure names
measure

Dual axis
↳ Actual measures
are used

8 values
↳ only one type
of chart

↳ 2 types of charts
are there!
